Response to Arguments

Applicant's arguments, filed May, 27, 2003, with respect to the objection of claims 68-70,81 and 82 have been fully considered and are persuasive. The objection of claims 68-70,81 and 82 has been withdrawn. The record is clear based upon the election of species that the means and or device for rolling up the sheet is represented by element 27 in figure 1, but the means plus function language is different in scope from the language of the latter similar claims.
